FIRE ON CHURCH HILL-QUICK WORK .-Yesterday at 1:05 P. M. an alarm of fire was sounded from Station 46; engine-house on I'wenty-fifth street near Broad, caused by the partial burning of the roof of Mr. D. B. Prosser's brick dwelling, situated on the south side of Grace street near the corner of Twenty-ninth street. The fire originated from sparks from a neighboring chimney. A messenger was sent running around to the engine-house of Company F, and in a very brief period the firemen were on hand with their hose and hook-and-ladder truck. The ladders were run up to the roof, and in five minutes the fire was put out by a plugstream, and not a bucketful of water was put into the house. The men of Captain Taylor's company were so judicious in their management that the damage to the house was only by fire, and did not amount to in some of the city departments, if made, more than \$100. Mr. Prosser owns the dwelling, and has upon it an insurance of \$1,000, and upon his furniture \$1,000, in how it was proposed to pay the interest on the Richmond Banking and Insurance Company. He was at his place of business when a messenger announced the news of the fire; but upon reaching home, and seeing how well everything had been managed, became quite enthusiastic in his thanks to Captain Taylor and his men.

Bushels of them might be easily collected. The fly is black, and the body about an inch in length, slender, and similar in appearance to an ordinary dragon-fly-differing from it, however, in that it is furnished with four transparent wings, two of them large and two of them small. It is also furnished with long attennie and two hair-like appendages in the rear, straight, and one and a half inches in length.

A boatman informed our reporter that a like visitation was observed last spring, about this time, at Maiden's Adventure pond, on the canal, when the surrounding shrubbery was literally laden with the strange insect. Pray, what is it? They

seem to be perfectly harmless. If the fly was only yellow our friends in Alexandria would recognize our descrip-SHEETINGS. SHIETINGS, and PILLOW-CASING our May flies." We have seen them so thick around the gas-lamps in that city that the light would be obscured, and at the bottom they might be shovelled up by a peckmeasureful at a time. There they are generated about Fishtown, and a strong northeaster will carry them all away in a night. The flock of flies that vesterday visited Richmond came from a southerly direction, and in their progress seemed to cover a space of about four squares in width.

CHICKEN-THIEVES IN THE EAST END .- Yes terday mnoring between 1 and 2 o'clock Mr' Samuel Gathright, residing near Trinity church, heard a noise among his chickens in the carriage-house. He called a young man staying with him, and with a pistol proceeded to the house and captured a negro, who had a basket with seven chickens in it. The darky begged Mr. Gathright not to shoot him, and during the parley he struck the light from the hand of the young man and made tracks. The thief escaped, although three shots were fired at him. THE BUCHANAN AND CLIFTON FORGE RAILWAY SCHEME DISCUSSED - AD-DRESSES FROM MAJOR JAMES H. DOOLEY. MR. CHARLES E. WHITLOCK, AND OTHERS-THE BOARD REFUSE TO LET THE PEOPLE. VOTE ON THE QUESTION OF SUBSCRIP-

The bonds shall be issued as each mile is certified to be completed, and each mile of said railway shall not cost more

than \$12,000. On motion of Mr. Bass, Colonel Carrington, and others who were present and interested in the scheme, were invited to address the Board. Agreed to.

Mr. Williams thought as there were so

The benefits to be derived from the gift may be sufficient to warrant the gift. It was idle to suppose that the Chesapeake and Ohio Company will turn over their freights to a rival company at Clifton Forge; and even if they would, mittee on Water. it is a very questionable matter whether they can bring the coal, cereals and freights to Richmond as cheap as the Chesapeake and Ohio road can. He didn't think it the province of the Council to take the balance of the city's money and spend it in this way.

Mr. Whitlock next read an extract from Canal Company, made in November last, which argued against the road. Mr. Carrington, president of the Canal Company, replied to Mr. Whitlock, and said so far as he was concerned he had no other interest than the interest of the city of Richmond and her people. He then proceeded to argue that it was to the interest

of the city to subscribe to the proposed enterprise. At the conclusion of Mr. Carrington't remarks, Mr. Meredith (Mr. Kellam being in the chair) addressed the Board, and said that the Council ought not to submit this question to the people until the Board of Aldermen and Common Council approve it. He hoped the members of the Board would not be driven from their position by any petition, however imposing the list of names. He was opposed to the subscription and op-

posed to the scheme out and out. After further discussion, Mr. Pickrell presented an amendment to the first section of the ordinance so as to provide for a representation of the city of Richmond in the meetings of the company. The amendment
